BRIDGE AT LILLE IS TARGET FOR ALLIES

This photograph shows the railroad bridge at Lille which trains use in communication with Lens. To prevent the Germans from rushing reinforcements to the battle lines at Lens, allied aviators have several times severely bombed this bridge and held up all railroad traffic. Notice the ruined houses which still stand a monument to the fighting between the French and the Germans in this section.

Life of Big Guns.

Guns with a bore of 12 inches or more can only fire 90 full charges. They are then considered to be worn out, and have to be sent to the foundry to have a new core inserted.

The Sign.

"I wonder if the chestnut crop will be good this year?"
"You can generally tell that by the fish stories."

Modern Life.

"Formerly a girl took pride in accumulating linen for her chest."
"Well?"

"Now she collects a lot of graphophone records."—Cincinnati Times-Star.

SOAP IS STRONGLY ALKALINE and constant use will burn out the scalp. Cleanse the scalp by shampooing with "La Creole" Hair Dressing and darken, in the natural way, those ugly, grizzly hairs. Price, \$1.00.—Adv.

Lost and Found.
"My husband lost his temper yesterday."

"Well, from the way my husband acted this morning I think it's very likely he found it. I wish you'd send over and get it. We don't need it."

Not a Matter of Gossip.
"Ah!" I have often heard of you, Mr. Gloom," suavely said the representative of an eastern publishing house who called on only the few persons in each neighborhood who were of sufficient intelligence to appreciate the valuable literary works which he was purveying.

"Uh-huh!" returned the dour and savage citizen. "Never heard of my being evil to a book agent, did you?"—Kansas City Star.

Man Without a Country.
An Italian translation of Dr. E. E. Hale's famous story, "The Man Without a Country," has been circulated in Italy in a cheap pamphlet edition for the purpose of arousing patriotic feeling.

A writer in the Christian Register, noting this fact, tells us that he once asked Doctor Hale if he really felt his great patriotic story as deeply as he made his readers feel it, and that he received a most emphatic affirmative response.

Matter of Speech.
As a rule the native of a country will naturally speak his own language better than a foreigner of equal standard. Of course, very few of us speak our own language perfectly, but still fewer speak perfectly any language besides their own. It is true that our characteristically careless habits of speech make the English of an educated foreigner more careful than that of the average American. If not more perfect.

Nearest Fixed Star.
Alpha Centauri is the sun nearest to the earth of all the fixed stars. One of the most magnificent of the first magnitude stars even to the naked eye, the telescope reveals it all suddenly as two great masses of solar fire, the flames, red, yellow and blue, blown upward and outward to the right by the winds of the universe. The great pair of rainbow flames appear to stand out like tangible objects in the depths of infinitely remote space many times larger than the naked eye stars. One of the two revolves about the other in a period of 80 years. It is one of the most stupendous and awful visions and the most absolutely beautiful that eyes have ever seen.

Dew Ponds.
The name "dew pond" is given to certain isolated ponds on the upper levels of the chalk downs of the south of England and elsewhere. Their name seems to imply that they depend on dew and not entirely upon rain for their maintenance as a source of water supply for cattle, for which they are used. The question has been discussed a good deal, but not settled; the balance of evidence seems to be against the view that dew deposits make any important contribution to the supply of water. The construction of dew ponds is, however, still practiced on traditional lines, but it is said that a new dew pond has first to be filled artificially. A dew pond does not come into existence by the gradual accumulation of water in an impervious basin, from the settlement of evaporated water from the atmosphere.

Quite True.
"Do you know that girls often think more of a dog than they do of a man before they are married?"
"Yes, and I've noticed that they often do afterward."

IMITATION IS SINCEREST FLATTERY but like counterfeit money the imitation has not the worth of the original. Insist on "La Creole" Hair Dressing—it's the original. Darkens your hair in the natural way, but contains no dye. Price \$1.00.—Adv.

The Next Step.
Be the noblest man that your present faith, poor and weak and imperfect as it is, can make you be. Live up to your present growth, your present faith. So, and so only, do you take the next straight step forward, as you stand strong where you are now; so only can you think the curtain will be drawn back and there will be revealed to you what lies beyond.—Phillips Brooks.

Strike Proper Balance.
Sex, religion and insanity are nearly associated. There is nothing that should be so well balanced as the religious belief of everyone. Sometimes "experiences in religion are nothing but the most rampant of neurotic hallucinations. The religious zealot is almost always a neurotic, and it only takes time to prove it. There are two kinds of neurotics, those who have lost religion and, of course, happiness, and those who have religious fanaticism. Strike the balance and you have health."—Kansas City Star.

Ought to Work.
"Alas, I have never been kissed."
"That shows lack of enterprise on your part. Your sister has a fiancé. I believe?"

"Yes."
"Why don't you meet him occasionally in the dark hall?"—Louisville Courier-Journal.

And lots of people who think they have nothing but trouble don't know what trouble really is.

More than 400 thunderstorms occur every year in Abyssinia.

Surgeon General Rupert Blue of the U. S. Public Health Service Says:

"I WANT TO WARN YOU AGAINST THE CRAZE PEOPLE IN THIS COUNTRY HAVE FOR WHITE FLOUR. THE WHITEST FLOUR IS NOT THE BEST; IT IS NOT THE PUREST; IT IS ONLY THE DEAREST, AND WHEN YOU BUY IT YOU BUY LOOKS AND NOT NOURISHMENT. IN ORDER TO MAKE IT WHITE, SOME OF THE MOST NOURISHING AND ESSENTIAL COMPONENTS OF THE NATURAL WHEAT HAVE BEEN TAKEN AWAY."

These "nourishing and essential components" are the priceless mineral phosphates of the grain, known as the "tissue salts," indispensable for perfect health of body, brain and nerves.

Everywhere food scientists and physicians are sounding a like note of warning, for a host of ills is following the pernicious practice of casting out these elements in the milling process, and that, simply to make the flour look white and pretty. Neurasthenia, anemia, Bright's disease, constipation, rickets, and a lowered resistance against disease in general, are some of these ills.

More and more thinking people are waking up to this evil. There's a way out.
